

# SHOWER DECONTAMINATION

**SafetyBOSS**

## ***1,000 Gallon Decontamination Unit***

As our name would suggest, safety is always our primary concern. SafetyBOSS provides shower decontamination units for use in acid stimulation and hazardous material recovery situations.

Transporting this unit is accomplished with:

- 2001 Freightliner FL 106 (Tractor)
- 330 hp Series 50 Detroit (Engine)
- 10 spd 8LL (Transmission)

All decontamination units have the ability to recover the gray water thereby decreasing the hazardous effect on the environment. The unit is designed according to strict A.N.S.I. Standards. Its features include:

- Emergency Response Registered
- Emergency Response Control Centre
- 1000 Gallons of On-board Potable Water
- Ability to Recover Gray Water
- 3 Drench Shower/ Eye Wash/ Mid Body Drench Hoses
- 2 Independent Hydraulic Drive 102 gpm Centrifugal Pumps

## ***On Board Equipment***

The SafetyBOSS Decontamination Unit is fully equipped with first aid equipment stored in a temperature controlled unit.

- Recovery Bunk
- Alberta #1 First Aid Kit
- Deluxe Trauma Kit
- By-Fold Stretcher
- Fire Blanket
- 4500 psi, 45 Minute Auto Positive Pressure SCBA
- 30 lb Purple K Fire Extinguishers
