To whom it may concern:

I am writing to recommend the services of Safetyboss. We have been using Safetyboss for the last 4 years for all of our High angle rescue jobs. This year we have started using them for all of our safety watch needs where we cannot utilize our own people. They do an excellent job, are always punctual, and offer competitive rates.

They have always provided us with trained and competent employees, on one of our jobs they went above and beyond provided safety for us as well assisted with the loading of the trucks.

I am happy to recommend the services of Safetyboss. If you have any questions, feel free to contact me.

Sincerely,

Sandra Shewkenek
Clearstream Energy Services

Please see attached recommendation letter from Sandra (On site Caroline Clearstream Supervisor) provided for your company Safety boss. I have reviewed the letter and agree with Sandra's assessment of your company's performance at Shell Caroline.

Thanks,

Clair Crosbie
