

To the entire Safety Boss Team,

First off, I'd like to thank Safety Boss once again for the High Angle Rescue Team that was dispatched to our Site recently. This team showed extreme professionalism, dedication and knowledge. The task we had this Team for was a first for Strike and was very technical. A lot of planning went into it and when it was determined that we would need High Angle Rescue, it was a very easy decision who we would be using for this. Safety Boss, no question about it.

I have had Safety Boss on numerous sites in the past six years and they have consistently supplied Top-notch safety services. The relationship we have built with Safety Boss over the years has been built on trust, respect, professionalism, reliability and integrity. We have used them for Confined Space Entry and Rescue Services, Breathing Air Services and High Angle Rescue Services. They have always left us with a feeling of comfort knowing our workers would be in good hands.

Please extend our thanks to all the Safety Boss staff and Management that has helped us so many times with all our Safety Needs. Safety Boss has truly provided us with Operational Excellence! Thank you!!!
