Dear Mr. Miller,

Safety Boss has played an outstanding role in the capping of Kuwait's burning oil wells. Yours was the only Canadian company to have been involved from the very start. Your employees played an important and courageous role in minimizing a major environmental catastrophe.

You have shown the world that Canada has great expertise in the face of an extraordinary challenge.

Canadians are proud of the accomplishment of your crews. I would like to convey my warmest congratulations to you and all of your employees.

Yours sincerely,
